

Tour Hydrowood's Lake Pieman Operation with Design Tasmania

Don't miss this incredible opportunity to experience Hydrowood first hand. Hydrowood timbers are perfect for specifying high-end joinery, flooring and furniture. Species include: Celery Top Pine, Huon Pine, Blackwood, and Myrtle.

Guests will travel to Strahan independently, and we strongly recommend to book at Strahan Village for both the Thursday and Friday nights. If you are booking at Strahan Villages, mention Design Tasmania for a special room rate.

Please note this is a working site and Tasmania's West Coast is notorious for wild weather. Please be prepared with warm and waterproof clothing and comfortable work boots or walking boots.

Tickets are \$110 including lunch and bus transfer to and from the lake. Places are strictly limited to 15, with a minimum of 10 for the tour to go ahead. Tour departs Strahan Village.

Prices are inclusive of GST.

When: 9am-4pm Friday 1 September

Where: tour departs Strahan Village, Strahan
