Australian
Institute of
Architects

Hobart - 12.30-2pm Wed 20 September
Launceston - 1pm-2.30pm Thurs 21 September

Documentation in Practice

Architectural documentation consultant Greg Blanch, Principal of documentation firm Detail 3, presents the do's and don't's of quality architectural documentation, covering recommended practice for drawings, graphic standards and approach, co-ordination, housekeeping, 2D documenting, 3D documenting, and BIM.

This is the perfect opportunity to learn about or refresh your documentation knowledge and strategy, and get a sense of what other practices are doing right and wrong in the current climate, and as they look toward the future.

Hobart: 12:30-2pm Wednesday 20 September
