

## **8/9 November: Documentation in Detail 2: A case study approach by Geoff Clark**

Documentation is a skill fundamental to the architect yet there is little time spent analysing the impact it has on the success of a building project.

In this session Geoff Clark will present the nuts and bolts and priority set in documentation.

Let's go back to basics with Geoff's no-nonsense approach to documentation that will help you achieve a high-quality set of drawing in your next project.

**Hobart:** 12:30-2pm Wednesday 8 November,  
Centre for Architecture, 1/19a Hunter St
