

CPD Seminar: Applied Interior Acoustics for Design Professionals

Refuel Provider Armstrong Ceiling Solutions are excited to announce Armstrong CPD seminars.

Armstrong's Applied Interior Acoustics for Design Professionals CPD course will describe the fundamental properties of sound, define acoustical terms and concepts and interpret how different material selections influence the acoustic environment.

This course contains 1 Formal CPD point. Armstrong CPD seminars can be presented over lunch or in the early evening. To find out more, please visit the [Armstrong website](#).
