Institute of
Architects

Refuel 3 FORMAL
CPD POINTS

Australian Institute of Architects

Following on from last year's successful seminar on condensation and airtight building, Dr Tim Law and Dr Mark Dewsbury will take a more in depth investigate into condensation in the built fabric and condensation regulation and risks.

Condensation & Airtight Buildings - Part 2 Presented by Dr Tim Law and Mark Dewsbury

Condensation in the built fabric, so what? Dr Tim Law

The Parliamentary Inquiry into biotoxin illness from water-damaged buildings was recently completed in Oct 2018. This talk presents an update of the inquiry and its recommendations as it pertains to buildings.

Condensation regulation and risk analysis: tools and climate files. Dr Mark Dewsbury

Australia, like many developed nations, has a high priority for increased energy-efficiency in buildings. The complexity of this phenomenon demands sophisticated analytical tools, and some of these are explored. Finally, some draft national recommendations will be presented.
