This seminar will be presented by Nick Liley (Arup), and Elvio Brianese (Liminal Studio) who will explain:

- How designers achieve functionality, excellent acoustics, visual quality and comfort in performance venues and internal spaces.
- How to apply the design principles of performance spaces to optimize comfort in other projects... schools, offices and high end residences.
- The process of integrating the requirement for an excellent acoustic as integral to the architectural expression of the building.
- How to integrate sound, light, AV technology and staging elements.
- Practical considerations including staging, AV integration, seating layouts, amenities, access, orchestra pits,
- How the brand new Hedberg Performing Arts Centre in central Hobart was conceived and designed.
